A. Continuous demand cycles
Half-cycle 5
Half-cycle 10
Half-cycle 20
External demand d_{ext}
Time (dimensionless)
B. Opposed input–output paths
5 rising
10 rising
20 rising
Resource reserve r
External demand d_{ext}
C. Pulse deviation from baseline
Aligned
Opposed
Equal-weight V
Time (dimensionless)
D. Absolute branch separation
Aligned
Opposed
$\mathcal{H}_{abs}$ (model units)
Half-cycle duration
